TOP COMING TWO-YEAR-OLD ANGUS BULLS

Dear Cattlemen:

Since the early 1920's the Sitz family has been involved with Angus cattle. The bloodlines of the Marshall Queen's, Blackbird's, Evidences Eppionia's, Erica Ellen's, Proud Formera's, Dora's and Emma E's found in our herd today all trace back to Grandfather Will Sitz's seven original cow families. We have a consistency that can only be found from generations of selective breeding.

With our knowledge and experience of pedigrees, taking careful consideration of the sire selection process, we have made our customer's bull selection less difficult.

The cowherd is a time proven one, and efficient cow lines have emerged by staying on track, avoiding fads, and being committed to raising fault-free cattle. We offer functional, eye-appealing bulls from these time proven cow families.

Selling is the very top of our 2015 bull crop. All are virgin bulls with the exception of those we used within our own herd.

After weaning the bulls are put on a ration to gain two pounds per day. As yearlings they were summered on grass without supplemental feed until the first part of November. At the present time they are being fed a high roughage ration in a large pasture with plenty of room to run.

Since our bulls are grown in an open range environment, they are more apt to stay sound longer. Ask any of our repeat customers – they will say the same: soundness and longevity are definite pluses in our program.

The best part of this business is the people we meet along the way. It is always a pleasure to see old friends, and meet new ones on sale day. Please feel free to call if you have questions.

Sincerely,

Mike and Debra Sitz

& Family

Dars Walk On 4 Traveler 584 was raised by Darwin Peckham near Bristow, South Dakota. Walk On has a remarkable pedigree wrapped up in one genetic package. He is the most structurally correct bull that we have seen in years, being extremely sound, having a great set to his legs, and traveling really well.

Woven through his pedigree are stalwart sires that have made a positive impact on the Angus breed. The sire to Dars Walk On, GDAR Traveler 584 L T, made moderate sized females who were excellent producers. The grand dam to GDAR Traveler 584 LT, Eileenmere Lady 83 GDAR, was a foundation cow of Gartner and Denowh Angus Ranch, being the same lineage that produced AAR New Trend and Oscar 711.

Sitz Barbara Perfection 4368 is the dam to Dars Walk On 4 Traveler 584. She was born in the Sitz herd from Montana, and is from the Barbara Perfection family. She has a generational pyramid of good cows stacked behind her, having eleven calves, with Walk On as her last natural calf. For those of you who desire to stay on the maternal track, Dars Walk On 4 Traveler 584 has those traits that have made the Angus cow so desirable. **Reg:** 17598272 **Calved:** 04/21/2011 **BW:** 80

GDAR Game Day 449 progeny are easy fleshing, moderate framed cattle. Game Day is in the top 2% in \$Wean while still ranking in the top 3% of the breed for \$EN, indicating him as an efficient cow producer. Game Day daughters have beautiful udders, and he is listed among the breed's best for improving udder quality. He is a Heifer Pregnancy (HP) leader with a +23.3, and he is recognized as one of the most consistent producers of low birth weight progeny with performance, without sacrificing carcass traits and maternal function. Game Day's calves are deep, good muscled, and eye appealing.

Calving Ease Direct (CED) is an EPD expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first calf heifers. It predicts the average difference in ease with which a sire's calves will be born when the sire is bred to first calf heifers.

Calving Ease Maternal (CEM) is an EPD expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughter will calve as first-calf heifers when compared to daughters of other sires.

MSAR Emblazon 4086 is a proven calving ease sire while his progeny exhibit excellent growth at weaning. MSAR Emblazon 4086 was purchased at our 2006 Bull Sale by Cedar Top Ranch, Stapleton. Later we began using 4086 extensively through AI on our heifers because of his outstanding dam and grand dam. His progeny are attractive cattle with thickness. They are easy fleshing, sound and structurally correct, with his sons being tight sheathed. Emblazon 4086's daughters have a more moderate frame size with excellent udders.

His dam has production records of 13 calves at 98 for BR, 13 calves at 98 for WR and 12 calves 99 for YR. The grand dam to his bull, Old 827, has produced 17 calves with BR of 100, WR of 101 and YR of 101.

MSAR Emblazon 4086's sire group was well received in our 2014 sale, averaging \$8444. We think enough of this bull that we continue to use his sons in our herd.

MSAR Emblazon 4086 son ~ MSAR Emblazon 2092

MSAR Chinook 9569 is a proven calving ease bull, and a son of CAR Chinnook 786. Chinook 9569 has strong performance on both his sire and dam's side going back several generations. The maternal grandsire, Sitz Traveler 6802, is a noted female producer. The dam and grand dam of Chinook 9569 are consistently high producing cows, having seven, and nine calves on record. The great-grand dam, 890, is an N Bar Emulation EXT daughter. She was a high producing, good uddered female as a fifteen year old, with a total of 14 calves on record. Her daughters are following this same pattern of consistent production.

MSAR Chinook 9569 is eye appealing with a good disposition, and slightly larger framed than our Forte and Right Time sires. We are pleased with the daughters in production. We use this bull as natural service and AI.

First Breeding Season Coverage

All bulls selling for \$3000 or more will be covered 50% by Mike Sitz Angus if they are injured during their first breeding season. First breeding season is defined as the 60-day period following the first turnout of the bull on injuries that occur in the breeding pasture. 50% of the value of the injured bull, minus one-half salvage value, will be given as a credit in a future sale or toward a replacement bull if one is available. As a two-year-old bull, the minimum salvage value will be valued at \$1350. Salvage value will be split equally between Mike Sitz Angus and the buyer. A veterinarian must diagnose all injured bulls. Please notify us as soon as possible should an injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2017. This is not mortality insurance. This does not cover poor management or neglect.
