# THE 100 YEAR COW HERD

Dear Cattlemen,

It is with humble gratitude that we celebrate the 100 year anniversary of our family's cowherd that began in 1923. Grandparents, William A. and Frieda Sitz of Buda, Nebraska, purchased their first registered Angus cows from William Williams of Clarks, Nebraska. When these heifers calved, the bull calves were traded back to William Williams for more heifer calves and thus began the expansion of the Sitz Angus herd.

Mike's parents, William T. and Dee Sitz, continued the herd, first in Green Valley, a ranching community south of Atkinson, NE, and finally in Rock County. Later Mike and Debra purchased cows from them. The fourth generation, Joel and Bethany (Sitz) Johnston, are carrying on the herd. Every cow in the herd today directly descends from the original cow families.

From these time-proven cow families, MSAR and JJA market exclusively Top Coming Two-Year-Old Virgin Bulls raised under range conditions. Here you will find a consistency obtained from generations of selective breeding.

Through the century, maternal genetics have been at the heart of the Sitz Family breeding program. We know nothing can upstage fertility and maternal traits when you are raising beef cattle. For 100 years every replacement heifer has come from within this herd and has proven herself in our environment.

Our herd management would be considered low input, especially for a purebred operation. This means no creep feeding for the calves and only protein and hay for the cows in winter. In a low-input environment, evaluation of easy fleshing, fertile animals are more accurate. Tough selection on our part translates to more profit in your cowherd.

As yearlings, the bulls are trailed 11 miles to their summer pasture where they are supplemented with only salt and mineral, allowing us to more easily evaluate the bulls who perform on grass. Then, back home again in late October, they continue to range on a quarter section pasture. In November, they are started on a high roughage ration consisting of prairie hay, modified distiller grains, and a little corn. The bulls are culled at weaning, again as yearlings with a final cut before the bull sale. Only the top of the calf crop is retained for our bull sale.

Our returning customers are the backbone of our sale success. They appreciate how the bulls are developed primarily on grass and roughage in order to build long-term soundness. Ask any of our repeat customers – soundness and longevity are definite pluses in our program.

We hope you will look at the sale offering, compare, and see what our program is accomplishing. Thank you to all of our customers who have supported us over the years. The best part of this business is the people we meet, and the friends we make along the way.

We look forward to seeing you Monday, February 6, 2023. Come for lunch!

Please feel free to call if you have any questions, or to set up an appointment to visit the ranch to look at the bulls.

Sincerely,

*Mike and Debra Sitz & Family  
Joel, Bethany & Jordee Johnston*

# MIKE SITZ ANGUS RANCH

84711 460<sup>th</sup> Avenue, Burwell, NE 68823

**Monday, February 6, 2023 - 1:00 (CST)**  
**Burwell Livestock Market, Burwell, NE**

## Contact:

Mike Sitz: 308.348.2273 (H)  
Joel Johnston:  
308.348.2010 (H), 308.645.7134 (C)

**Sale Day/Sale Barn Phone:** 308.346.4257  
or Joel Johnston: 308.645.7134 (C)

**Location:** The sale will be held at the Burwell Livestock Market, Burwell, Nebraska. The barn is located in the southwest part of town, west of the water tower, at 401 S 11<sup>th</sup>. **Bulls will be trucked in the morning of the sale.**

**Questions:** Please feel free to call with questions. You are welcome to visit the ranch prior to the sale to inspect the bulls. If you would like to check out the bulls at the ranch, give Mike a call: **308.348.2273** or Joel: **308.348.2010**

**Absentee Bids:** If you cannot be with us sale day, we will confidentially and honestly handle any bids for you. Call Mike Sitz at **308.348.2273**, Joel Johnston at **308.348.2010**, Mike Baxter, Auctioneer, at **402.387.1861 (H)**, or **402.394.5686 (C)**. On Sale Day, call the Sale Barn at **308.346.4257**.

**Storm Date:** Is set for Monday, February 13<sup>th</sup>. In case of severe weather, call Mike, **308.348.2273** or Burwell Livestock Market, **308.346.4257** about the possibility of a sale postponement.

**EPDs** are updated weekly. The epds in this catalog are as the week of December 5<sup>th</sup>, 2022.

## Accommodations:

Rodeo Inn, Burwell, 308.346.4408  
Sandhill Suites, Burwell, 308.346.4964  
Pump and Pantry Motel, Burwell,  
308.346.4607

## TOP COMING TWO-YEAR-OLD VIRGIN ANGUS BULLS MODERATE BULLS FROM A TIME PROVEN COWHERD.

**Herd Health:** All bulls have tested negative for BVD. Bulls were vaccinated with IBR, BVD, PI3, BRSV, 7 Way Blackleg and are poured.

**Semen Evaluation:** All bulls have passed a fertility and breeding soundness exam evaluation by Dr. Terri Bridgman, Burwell, NE - 308.750.9128. This test includes semen analysis for vigor, concentrations, morphology and percentage live. Also, included is an examination for physical defects such as abnormal testicles and warts. Scrotal circumferences are taken at this time. If there are any problems, the bull will not be sold.

**All are virgin bulls** with the exception of the two we used for clean-up and those are Trich tested.

**Delivery:** Free delivery within Nebraska on total purchases of \$3000 or more. We will assist all buyers on delivery. If you bring your own trailer, we will deduct \$50 per bull on sale day.

**Retained Interest:** Mike Sitz Angus (MSAR) or Joel Johnston (JJA) is retaining 1/3 semen interest on all bulls. Buyer has full possession.

**Terms and Conditions:** The cattle selling in this auction will sell under the Terms and Condition of the American Angus Association. All cattle are the buyer's property as soon as sold.

**Liability:** Mike Sitz, Joel Johnston, or Burwell Livestock Market assumes no liability, legal or otherwise, for any accident that may occur on the sale premises.

**First Breeding Season Coverage:** See page 25 for details.

This sale will be broadcast live on the internet.

**DVAuction**  
Broadcasting Real-Time Auctions  
Real time bidding & proxy bidding available.

**DV Auction Online Bidding:** Online bidding is available through DVAuction.com. Please register on DVAuction at least 24 hours prior to the sale. A full-time support team can be reached at 402.316.5460 or contact representative Tami MacIntosh, 308.870.3661. Sale will be broadcast live on the Internet. High-speed internet is required. Real time bidding and proxy bidding available.

## PREVIEW BULL VIDEOS AT WWW.MIKESITZANGUS.COM OR DVAUCTION.COM

1. Create an account at [www.dvauction.com](http://www.dvauction.com) under the "create new account" tab.
2. Apply for bidding by clicking "apply for bidding" in the upper left corner of your screen, **at least 24 hours prior to the auction.**
3. Tune into the sale and make your purchases!

**High speed Internet** is required for successful bidding. Be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

**Proxy Bidding:** If you cannot make time to watch the sale, register a proxy bid and let our system represent your bid while you are away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

**Having troubles?** During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at **402.316.5460**.

MSAR Emblazon 2092 was used prior as cleanup when he was a yearling, and was purchased back as a seven-year-old, using him to pasture breed and to use AI. One of his most notable characteristics was the way he moved. He was an impressive, **free moving bull** that traveled well with great feet and legs.

He has proven calving ease, and is a thick, deep bodied, moderate bull, consistently producing progeny with high weaning and yearling weights. 2092 is extremely consistent with everything we desire in progeny. He makes good cows with great udders and fleshing ability, good weaning and yearling weights, and sons that have a lot of muscle shape and extra length of body---and most importantly, we get these characteristics **consistently** year after year.

MSAR Emblazon 2092 would rank in the "easy keeping" and "easy fleshing" category. While a prolific breeder, he maintains his weight on grass during the breeding season. To top it off, his progeny follows his temperament of a nice disposition.

• Maternal bull. Dam has 10 calves and is pregnant with number 11.

## WHY DO WE USE OUR OWN BULLS?

We use our own genetics because we trust our program. We take our most outstanding genetics, and stack those as a way of locking in and enhancing desirable traits.

Using our own genetics has also helped us avoid genetic defects, breed true, and attain genetic purity.

**Lot 34**

• Dam is a good, young cow with a perfect udder.

## OUR BULLS ARE MORE EASILY EVALUATED

When you attend our sale, **our bulls are more easily evaluated** because conformation faults are not hidden behind high camouflage fat. We all know when it comes to bull marketing – to put it simply – fat sells. **We avoid the negative effects of overfeeding in relation to the long-term health of the bull.**

**Mohnen Substantial 272** combines pedigree flexibility and proven calving ease with added thickness, maternal strength, performance and efficiency. He has excellent feet and legs, rating high for Claw and Angle for breed leading foot quality. His Birth epd is -2.0, with a wide spread to his Yearling epd of +107. We used him on our heifers because he had consistent numbers, and seemingly one of the more efficient bulls combining decent numbers taking into account foot score, carcass and performance.

• Calving ease bull. Dam has great udder.

**DAY IN AND DAY OUT**

The most important elements of functional and profitable cattle are hard to measure and complicated to explain. All the countless numbers available still do not replace the day in and day out, hands on experience within our own cowherd. With this knowledge, coupled with over 50 years of Angus Herd Improvement Records (AHIR), we can help with the bull selection process. By drawing from the personal understanding of our herd, one can be confident that we are able to help find the bull best suited for your program.

**MSAR Game Day 4042** is a **prolific breeder**, easily maintaining his weight on grass during the breeding season. 4042 has the right frame score to **produce functional and efficient females** with great udders, yet still produce calves with **good muscle expression and thickness**. Year after year, it has been easy to pick out his straight, uniform calves which have consistently grown up to be eye appealing, easy fleshing cattle with great dispositions.

MSAR Game Day 4042 has **10 Pathfinders** in his three-generation pedigree, and a history of **longevity** is evident in the high producing cows found on his maternal side, including "Old 827" with her 17 calves on record. His maternal grand sire, MSAR Forte 6776, is a Pathfinder Sire and another one of our home- raised bulls.

If you are looking to extend your grazing season -- and your pocket book -- with a moderate framed, stylish cow, this bull will produce the type of cattle you are seeking in a complete package. MSAR Game Day 4042 is a perfect example of why we use our own bulls to make cows.

## WHY DON'T WE CREEP FEED?

Developing our calves without creep gives us a more accurate record of what the cow is actually producing. Is she raising a big, healthy calf on her own? Is she keeping adequate flesh doing so? Is she breeding back on time? These questions about the cow herd cannot be accurately answered with the utilization of creep feeding, or other supplements.

What is the benefit of this practice to you? If your aim is to reduce production costs and also keep replacement heifers, you will benefit from our rigid culling practices. The more rigidly we cull and sort our own herd the more likely you are to reap the future rewards of a functional, economical cow herd of your own by using bulls from these productive cows. Added production coupled with fertility and longevity with less feed is more dollars in your pocket.

## STANDING THE TEST OF TIME

For a century the Sitz family has been involved with Angus cattle.

**Marshall Queen, Blackbird, Evidences Eppionia, Erica Ellen, Proud Formera, Dora, and Emma E** are cow families found in our herd today, all tracing back to Grandparents Will and Frieda Sitz's seven original cow families purchased in 1923. **One hundred percent of our present-day cowherd are direct descendants from these original cow families.**

Our cowherd is a family treasure and we regard it as such. By working within the boundaries of these bloodlines, we have a consistency that can only be achieved from generations of selective breeding. Efficient cow lines have emerged by staying on track, avoiding fads and being committed to raising fault free cattle. **For 100 years our Time Proven Cowherd has stood the test of time.**

**MATERNAL WEANED  
CALF VALUE (\$M)**

\$M is the most maternally-focused selection index currently available to Angus members and commercial users of Angus genetics. \$M, expressed in dollars per head, aims to predict profitability differences in progeny due to genetics from conception to weaning. \$M places greater emphasis on the cost side of commercial cow-calf production than any tool available in the past. Increased selection pressure on \$M aims to decrease overall mature cow size while maintaining weaning weights consistent with today's production.

## BULL MANAGEMENT

---

In mid-October, the bull calves are weaned, and go back out on native range with salt and mineral. Their ration is distiller's cubes and winter range, to gain two pounds per day. Later, the bulls are put on a high roughage ration of ground prairie hay, modified distiller grain, and a little corn, to gain 2 pounds a day. As yearlings, the bulls graze native range and bottoms of cool-seasoned grasses, supplemented only with salt and mineral. In mid-October, pre-sale, they begin a high roughage ration consisting of prairie hay, modified distillers grains, and a little corn.

## HEIFER AND COW MANAGEMENT

---

After weaning, the heifer calves winter graze in the hills, have salt and mineral, and are supplemented with a distiller's cube to gain one pound per day. They will receive prairie hay when the winter grazing is short or covered with snow.

In June heifers are synchronized, heat detected, and artificially inseminated. A calving ease bull is turned in for 30 days. After pregging, all open heifers are sold.

Once calves are weaned, the cows are wintered on range and meadow regrowth and supplemented with distillers cubes. Prairie hay is fed in January, once the native range is short.

At calving, cows are on pasture, and supplemented with cake and prairie hay. At birth, each calf is caught and hand-weighted with a scale for their actual birth weight.

In June, the cows are synchronized, heat detected, and artificially inseminated. Cows and first calf heifers are sorted into bunches of sixty, and each bunch has a bull turned in with them for forty-five days. At the end of October, females are preg checked and all opens are sold with no second chances.

**Throughout the year, we constantly evaluate feet, udders, disposition and performance.**

## FIRST BREEDING SEASON COVERAGE

---

All bulls selling for \$3000 or more will be covered 50% by Mike Sitz Angus and JJA if they are injured during their first breeding season. First breeding season is defined as the 60-day period following the first turnout of the bull on injuries that occur in the breeding pasture. 50% of the value of the injured bull, minus one-half salvage value, will be given as a credit in a future sale or toward a replacement bull if one is available. As a two-year-old bull, the minimum salvage value will be valued at \$2000. Salvage value will be split equally between Mike Sitz Angus and the buyer. A veterinarian must diagnose all injured bulls. Please notify us as soon as possible should an injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2023. This is not mortality insurance. This does not cover poor management or neglect.
